

Estanislao Sebastián Córdoba

Senior Backend Developer · .NET & C#

Tucumán, Argentina cordobaestanislao@gmail.com linkedin.com/in/estanislaocordova

✈️ Open to relocation — Estonia & Lithuania | Visa sponsorship required | Available immediately

PROFESSIONAL SUMMARY

Senior Backend Developer with **7+ years of experience** building enterprise-grade applications using C#, .NET, and SQL. Proven expertise in modernizing legacy systems (.NET Framework 4.8) to cloud-native architectures (.NET 10) with Docker, Azure, and microservices. Currently driving platform modernization at a leading U.S. insurance carrier, collaborating daily with international stakeholders in English. Actively seeking relocation to the Baltic region after visiting Estonia and Lithuania in 2025.

PROFESSIONAL EXPERIENCE

Senior Backend Developer

Feb 2023 — Present

JBKnowledge · Contractor for Safety National (U.S. Insurance Carrier) · Remote from Argentina

- Architect and maintain multiple backend applications supporting enterprise insurance operations, managing both legacy (.NET Framework 4.8) and modern (.NET 10) services
- Lead ongoing migration from monolithic legacy systems to **cloud-native microservices** using .NET 10, Docker containers, and Azure, following Clean Architecture principles
- Design and implement **event-driven communication** between microservices using messaging patterns (queues/topics), ensuring system decoupling and reliability
- Build and maintain **CI/CD pipelines** on Azure DevOps for automated build, test, and containerized deployments to Azure
- Participate in **daily standups, sprint planning, and user story refinement** directly with U.S.-based clients and stakeholders — all conducted in English
- Collaborate with cross-functional teams to define API contracts, review code, and ensure high-quality deliverables following Agile/Scrum methodology

C#, .NET 10, .NET Framework 4.8, Docker, Azure, Azure DevOps, SQL Server, REST APIs, Microservices, Clean Architecture, Messaging/Event-Driven

Full Stack Developer

Dec 2021 — Jan 2023

JBKnowledge / Integramedia · Internal Projects · Remote

- Developed and maintained full-stack enterprise applications using C#/.NET backend and React frontend
- Optimized database queries and API performance, improving system responsiveness across platforms
- Implemented RESTful APIs consumed by multiple client applications with consistent data flow

C#, .NET, SQL Server, React, JavaScript, REST APIs, Azure DevOps, Git

Full Stack .NET & React Developer

Apr 2021 — Nov 2021

Ministry of Education, Tucumán · Government Sector

- Built full-stack applications integrating .NET backend with React UI for public education management
- Developed RESTful APIs serving platforms used across the provincial school network

C#, .NET, React, JavaScript, SQL Server, REST APIs

UI/UX Designer & React Developer

May 2019 — Jan 2020

elTucumano Newspaper · Media Industry, Tucumán

- Developed React frontend components and designed UI/UX mockups for a regional news platform
- Improved content delivery through responsive design, Material-UI integration, and performance optimization

React, JavaScript, Material-UI, HTML5, CSS3, Adobe XD
