

Estanislao Sebastián Córdoba

Senior Backend Developer .NET & C#

Professional Summary

Senior Backend Developer with 7+ years of experience building enterprise-grade applications using C#, .NET, and SQL. Proven expertise in modernizing legacy systems (.NET Framework 4.8) to cloud-native architectures (.NET 10) with Docker, Azure, and microservices. Currently driving platform modernization at a leading U.S. insurance carrier, collaborating daily with international stakeholders in English. Open to relocation.

Professional Experience

Senior Backend Developer

Feb 2023 – Present

JBKnowledge · Contractor for Safety National (U.S. Insurance Carrier)
(Remote from AR)

- Architect and maintain backend applications supporting enterprise insurance, managing legacy (.NET Framework 4.8) and modern (.NET 10) services.
- Lead monolithic migrations to cloud-native microservices using .NET 10, Docker, and Azure, following Clean Architecture.
- Design event-driven messaging patterns (queues/topics) for decoupled service communication.
- Build and maintain CI/CD pipelines in Azure DevOps for automated builds, tests, and container deployment.
- Collaborate daily in English with U.S.-based stakeholders in daily standups and sprint planning.
- Ensure high-quality Agile/Scrum deliverables via code reviews and API contracts.
